Assessment undertaken by Martyn Walley (Covid Officer)
Date of initial assessment 30th June 2020

This risk assessment was agreed by the Managing Trustees of Woodgreen Evangelical Church on 21st July 2020.

The risk assessment is underpinned by the following considerations:

- Identifying which activities or situations might cause transmission of the virus.
- Thinking about who could be at risk.
- Deciding how likely it is that someone could be exposed.
- Removing potentially harmful activities or situations, or, where this is not possible, seeking to control risk.
- Tracking incidents in an accident logbook in accordance with the Woodgreen Church Health and Safety Policy.

Woodgreen Evangelical Church is committed to operating in a way that is responsible, appropriate and safe for all those who wish to meet to worship. This risk assessment seeks to adhere to all current guidance provided by the Government for the safe use of places of worship during the pandemic. The following measures are the practical steps taken to require this to happen and will be in place before the building opens and meetings re-commence. All members and attendees for whom contact details are available will be sent details of the new arrangements prior to opening, to enable them to conform to the changes.

Measures will be communicated as follows: Clear information to be posted throughout the building. All members and regular attenders to be sent a copy of this risk assessment and the Woodgreen Community Agreement. These documents to be available on the church website. Attendees to be reminded of the importance of social distancing and hygiene by service leaders. Reminders and instructions to be included in pre-service power point slides. Reminders and further instructions as necessary to be included in 'church matters'.
